Why ADAM?

For more than 50 years, professionals worldwide have relied on Adam Equipment for an extensive selection of scales and balances in the laboratory, medical, education, industrial, jewelry, food and veterinary markets.

Adam is a leading global designer and manufacturer of weighing scales. This comes with a high level of responsibility, not only to provide the right weighing scales for the job, but to ensure that every user has confidence in their Adam device. To demonstrate our faith in the quality and dependability of our products, we've increased warranty periods on a new 2023 purchase for almost every scale and balance in this catalog.

With warranties of up to five years, buying an Adam product is now an easier, safer choice.
For details, turn the page or contact your local Adam representative.

FYI: What is *List Price*?

Adam Equipment's list price is simply our Manufacturer's Suggested Retail Price. It's not necessarily what a consumer will pay for a product, but it's a guideline for our authorized dealer network to use when setting their prices.

Approvals

NTEP
In the US, scales and balances that are used to sell goods by weight must be approved by the National Type Evaluation Program. NTEP relies on expertise and input from regulatory and industry representatives to develop consensus on standards and procedures.
Learn more at **www.ncwm.net.**

Measurement Canada
In Canadian retail settings, scales and balances used for trade must receive Measurement Canada approval. Measurement Canada adheres to Weights and Measures Act regulations, ensuring accuracy when products are weighed prior to sale.
Learn more at **www.ic.gc.ca.**

NSF
NSF International is a product testing, inspection and certification organization created to standardize sanitation and food safety requirements in the US. Accredited by the American National Standards Institute, NSF develops standards for multiple industries, as well as performs analytical testing for supplements and pharmaceuticals.
Learn more at **www.nsf.org.**

Our *Quality-Guaranteed* Warranty

You may not know what tomorrow will bring, but with Adam's new, longer warranty periods, you'll have one less thing to worry about.

We trust the quality and construction of our products. To demonstrate that trust, we're increasing the warranties on nearly all our scales and balances up to **five years** — levels of protection that are unheard of in the professional weighing industry.

Starting **January 1st, 2023,** your customers will be able to buy an Adam Equipment scale or balance knowing that they are covered for longer.

The new warranty periods come at no extra cost and means customers are getting greater value and more peace of mind for their money. With Adam's unmatched warranty coverage and after-sales support, we're sure you'll have the same confidence in our products.

Look out for our new warranty symbol when looking through this catalogue — or check the table on the opposite page to see how our warranties have increased.

Equinox EAB/EPB/ETB Semi-Micro, Analytical & Precision Balances

Equinox semi-micro, analytical and precision balances bring remarkable precision to labs that perform highly detailed testing. The Equinox is ideal for Research and Quality Assurance facilities, Science Education, Forensics, Pharmacology, and for any application needing exceptionally precise results. A vividly sharp color touchscreen display provides intuitive operation, with icon-driven menus and readily accessible applications and functions.

Analytical Balances

Precision Balances

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / Animal weighing
- Accumulation
- Density determination
- Peak hold
- Formulation
- Statistics
- Textile

Large, responsive 5'' 800x480 pixel customizable touch-screen display

USB port for transferring, recording and printing weighing data

Memory for storing and quick access of products and settings

Features

- Security slot for optional lock and cable to help prevent theft
- RS-232 interface provides speedy connection to computers and printers
- Printouts include date and time for data tracking within Good Laboratory Practices (GLP) guidelines
- Selectable digital filtering helps minimize effects of vibration and disturbances
- Security password control prevents unauthorized access
- Parts counting with freely selectable sample sizes
- Multilingual display permits use in various regions
- Large, grade 304 stainless steel pan
- Memory accumulation totals results
- Checkweighing with audible alarm

General Specifications

- Weighing units: g, mg, ct, GN, lb, oz, dwt, mm, ozt, tl.H, tl.S, tl.T, T, custom unit
- Interface: RS-232, USB
- Power supply*: 24VDC 1A adapter
- Display: Touchscreen with 0.5" / 13mm-high digits
- Calibration: External, Internal automatic
- Housing: ABS Plastic
- Operating temperature: 10° to 30°C / 50° to 86°F

*9VDC 1A power supply in 363 e/i and 3202 e/i models

5 year warranty

Solis SAB/SPB/STB Semi-Micro, Analytical & Precision Balances

With a generously sized high-resolution graphic display, Solis semi-micro, analytical and precision balances offer an ideal solution for demanding laboratory applications. Formulation is simplified with data storage for up to 99 ingredients. The graphic display allows an easy view of comprehensive data, while the keypad offers easy-to-read buttons and helpful navigation arrows for intuitive operation.

Nimbus® **NBL** & *Eclipse*® **EBL** Heavy Duty Precision Balances

Designed to be durable, Nimbus and Eclipse heavy-duty precision balances feature a solid metal base with an indicator housed in sturdy ABS plastic to withstand chemicals and rigorous daily use. Navigation buttons are large and color-coded, helping users operate the balance with minimal training.

Nimbus® Balances

Eclipse® Balances

Available with pillar or body mount

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / Animal weighing
- Density determination

Sealed keypad protects against dirt and spills

Large, grade 304 stainless steel pan for precision weighing to higher capacities

USB and RS-232 interfaces for speedy connection to printers and PCs

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- Programmable backlight can be set to "always on," "always off" or "light only when weighing"
- Overload protection helps prevent damage to internal components
- Hook available for weighing below the balance
- EBL's illuminated capacitive touch keypad provides responsive operation with a durable, smooth surface that can easily be wiped down
- Security password control prevents unauthorized access
- Printouts include date and time for data tracking within Good Laboratory Practices (GLP) guidelines
- Selectable digital filtering helps minimize effects of vibration and disturbances

General Specifications

Highland® **HCB** Portable Precision Balances

Highland precision balances are well-suited for lab work, field use, and many industrial applications. The Highland features HandiCal® internal calibration with a built-in mass*, and ShockProtect® as a safeguard against shock loading and accidental overload.

**Highland®
Balances**

**Highland®
Approved
Balances**

Applications

- Weighing
- Parts counting
- Percentage weighing
- Accumulation

USB and RS-232 for speedy communication with printers and PCs

ShockProtect® helps protect internal components from potential damage if overloaded

Stackable design** for easy storage of multiple units

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Programmable backlight can be set to "always on," "always off" or "light only when weighing"
- Capacity tracker built into display for easily monitoring possible overloads
- Buttons most frequently used are color-coded for quick recognition
- Solid ABS housing is durable for industrial use
- Hook included for weighing below the balance
- Programmable auto power-off to save energy
- Parts counting with preset sample sizes
- Audible overload alarm warns when capacity is exceeded
- Zero-tracking feature ensures display returns to zero reading
- HandiCal® internal calibration eliminates need for external weight set (available in non-approved models only)
- Selectable digital filtering helps minimize effects of vibration and disturbances
- Memory accumulation totals results

HandiCal not available in approved models

***Small pan models only*

General Specifications

- Weighing units:

  HCB: g, lb, oz, N, GN, ct, dr, dwt, mm, ozt, T, tl.H, tl.S, tl.T

  HCBM: g, ct, kg
- Interface: RS-232, USB
- Power supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.7" / 18mm-high digits
- Calibration: External, Internal automatic
- Housing: ABS Plastic
- Operating temperature: 0° to 40°C / 32° to 104°F

3 year
warranty

Core® CQT Portable Compact Balances

No balance can beat the Core for basic weighing value. Core's housing is simple to clean and designed to stack for easy storage. A basic keypad with dual tare keys makes Core balances easy to use.

Core® Balances

General Specifications

- Weighing units: g, kg, lb, oz, N, GN, ct, dr, tl.T
- Power supply: 12VDC 500mA adapter, 6 x AA Batteries
- Display: Backlit LCD with 0.7" / 18mm-high digits
- Calibration: External
- Housing: ABS Plastic
- Operating temperature: 0° to 40°C / 32° to 104°F

Applications

- Weighing

Large, grade 304 stainless steel pan for easy cleaning

ShockProtect® helps protect internal components from potential damage if overloaded

120mm pan models are stackable for easy storage

Features

- Vivid backlit LCD easily visible in any lighting conditions
- Programmable backlight can be set to "always on," "always off" or "light only when weighing"
- Security slot for optional lock and cable to help prevent theft
- Hook included for weighing below the balance
- Audible overload alarm warns when capacity is exceeded
- Zero-tracking feature ensures display returns to zero reading

TBB Triple-Beam Mechanical Balances

Triple beam balances — which are used to accurately measure mass to a high degree of precision — are mechanical weighing instruments that are ideally suited to teach students concepts of mass measurement in a classroom environment.

TBB Balances

Calibration Weight Set

Applications

- Weighing
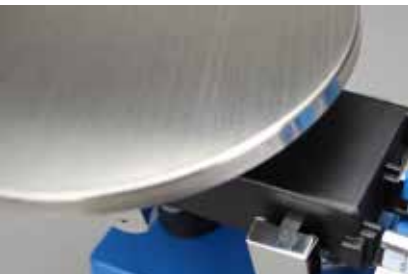

Large, grade 304 stainless steel pan for easy cleaning

Optional tripod legs available for some models

Storage space for weights included with balance

General Specifications

- Weighing units: g
- Display: Graduated beam with 0.3" / 7mm-high digits
- Calibration: External
- Housing: Die-cast aluminum

Model	Capacity	Readability	Pan Size	List Price
TBB 610S*	610g	0.1g	6.0" / 152mm ø	$160.00
TBB 2610S	2610g	0.1g	6.0" / 152mm ø	$195.00
TBB 2610T	2610g	0.1g	6.0" / 152mm ø	$210.00

Does not include weights or leg attachments

5 year warranty

Features

- Magnetic damping slows pointer movement for faster readings
- Notched, tiered, graduated beams ensure positive positioning and accurate reading of results
- Security slot for optional lock and cable to help prevent theft
- Optional hook enables below-balance weighing with legs attached
- The TBB 2610T is equipped with a 225g tare range

PMB Moisture Analyzers

With simple operation and rapid response time, the PMB offers top value in moisture analysis. USB and RS-232 interfaces facilitate connectivity, while another USB port allows storage of test programs and data on flash drives.

PMB Moisture Analyzers

Optional Temperature Calibration Kit

Applications

- Moisture Determination
- Weighing

USB host for memory card, USB I/O and RS-232 interfaces

Four preset drying methods allow test routines for a wide variety of samples

Pan lifter allows easy placement and removal of samples

General Specifications

- Weighing units: g, %M, %S, ATRO %M, ATRO %S
- Interface: RS-232, USB
- Power supply: Power cord
- Display: Backlit LCD with 0.9" / 24mm-high digits
- Calibration: External
- Housing: Die-cast aluminum
- Operating temperature: 0° to 40°C / 32° to 104°F

PMB 202	200g	0.01g / 0.05%	3.9" / 100mm ø	$3,210.00

5 year warranty

Features

- Scratch-resistant aluminum housing protects internal components
- Temperature range 50°C to 160°C in one-degree increments
- Three settings for heating sample include ramp-up, stepped temperatures and single temperature
- Audible overload alarm warns when capacity is exceeded
- Multilingual display permits use in various regions
- Zero-tracking feature ensures display returns to zero reading
- Internal memory stores 49 different recipes and up to 99 test results, while additional test results and settings can be stored on a flash drive

Latitude **LBX** Compact Bench Scales

With simple operation and a variety of modes, our robust, dependable Latitude compact bench scales deliver excellent value for quick, basic weighing and counting needs.

Latitude Bench Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Display hold

Checkweighing LEDs show under, over, or within limits

Rugged construction stands up to industrial use

Rechargeable battery included for operation almost anywhere

General Specifications

- Weighing units: g, kg, lb, lb:oz, oz
- Power supply: 5VDC 1A adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.9" / 24mm-high digits
- Calibration: External
- Housing: ABS Plastic
- Operating temperature: 0° to 40°C / 32° to 104°F

Model	Capacity	Readability	Pan Size	List Price
LBX 3	6lb / 3kg	0.001lb / 0.5g	7.1" x9.6" / 180x245mm	$280.00
LBX 6	12lb / 6kg	0.002lb / 1g	7.1" x9.6" / 180x245mm	$280.00
LBX 12	25lb / 12kg	0.005lb / 2g	7.1" x9.6" / 180x245mm	$280.00
LBX 30	65lb / 30kg	0.01lb / 5g	7.1" x9.6" / 180x245mm	$280.00

3 year *warranty*

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Overload protection helps prevent damage to internal components
- Sealed keypad protects against dirt and spills
- Simple operation allows quick startup and use with little or no training
- Large, grade 304 stainless steel pan allows for swift cleaning
- Checkweighing with audible alarm
- Hold function freezes the displayed weight
- Parts counting with preset sample sizes

Other Specifications

- Ship Weight: 8.8lb / 4kg
- Ship Dim: 11.6" x13.8" x6.9" / 295x350x175mm

7.1" x9.6" / 180x245mm

4.1" / 105mm

11.4" / 290mm

10" / 255mm
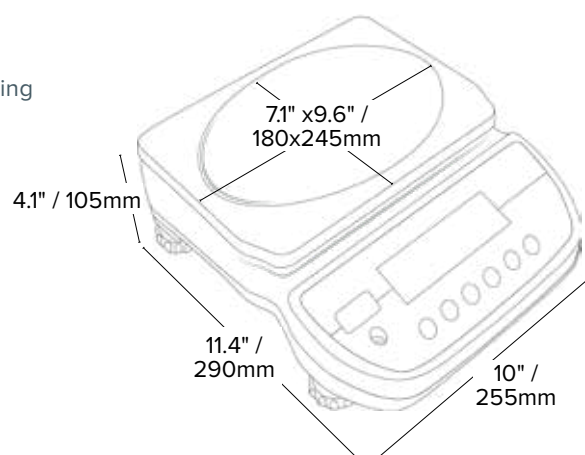

Cruiser® CKT Checkweighing Bench Scales

Ideal for inventory control or packaging tasks, the CKT can save money by reducing waste and overages. Repetitive checkweighing tasks are accomplished quickly with a backlit display that changes colors to show if a sample is under, over, or within the preset limits.

Cruiser® Bench Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Check counting
- Net Total weighing
- Accumulation

Display changes color for quick notification of checkweighing limits

Checkweighing function features audible alarm

Sealed keypad protects against dirt and spills

CPWplus Bench and Floor Scales

Durable and versatile, CPWplus weighing scales feature a wide selection of sizes and configurations. The CPWplus is able to operate across many industries, like industrial (including concrete testing), warehouse, shipping and receiving, medical and veterinary.

CPWplus Bench and Floor Scales

CPWplus P

CPWplus L

CPWplus M

CPWplus Standard

CPWplus W
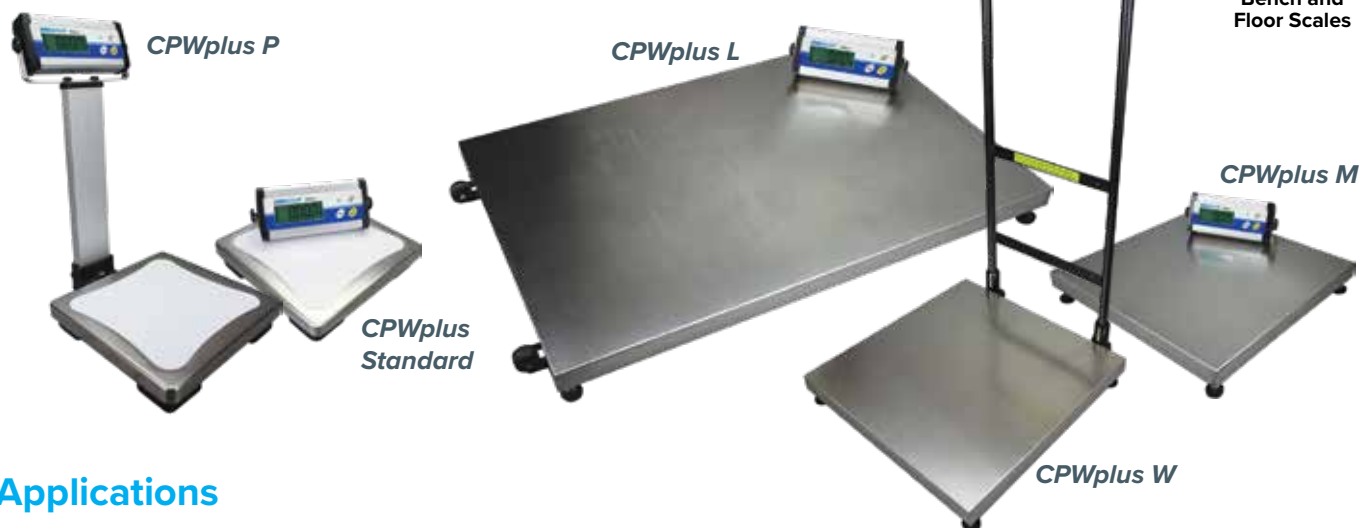

Applications

- Weighing
- Display hold

Grade 304 stainless steel base available in three different sizes

Indicator can be wall mounted with the included bracket

"L" models feature handles and wheels on the base for transportation

Features

- Rugged construction stands up to industrial use
- Splash-proof housing, keypad and display are easy to clean
- Hold function freezes the display, allowing time to elapse without losing the result
- Selectable digital filtering helps minimize effects of vibration and disturbances
- Zero-tracking feature ensures display returns to zero reading

General Specifications

- Weighing units: g, kg, lb, lb:oz, oz
- Interface: RS-232
- Power supply:

  Standard and P Models:
  12VDC 500mA adapter, 6 x AA Batteries

  L, M and W Models:
  12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.9" / 22mm-high digits
- Calibration: External
- Housing: Mild steel base
- Operating temperature: 0° to 40°C / 32° to 104°F

3 year warranty

GBK & GFK Checkweighing Bench and Floor Scales

Ideal for industrial settings, GBK and GFK checkweighing scales are the answer for businesses needing heavy-duty durability and speed. With grade 304 stainless steel pans and rugged, non-slip rubber feet, these scales perform well in demanding environments, such as in food processing and manufacturing.

GBK Bench Scales

GFK Floor Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / animal weighing
- Accumulation

"Traffic light" checkweighing LEDs and audible alarm for faster weighing
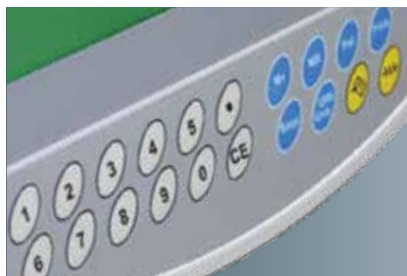

Full numeric keypad for quick and easy setting up of checkweighing limits

Rugged indicator with sealed keypad to protect against dirt and spills

Features

- Vivid, backlit LCD easily visible in any lighting conditions
- Capacity tracker built into display for easily monitoring possible overloads
- Programmable backlight can be set to "always on," "always off" or "light only when weighing"
- Color-coded keys facilitate quick recognition of the most frequently used buttons
- Large, grade 304 stainless steel pan allows swift cleaning
- RS-232 interface provides speedy connection to computers and printers
- Overload protection helps prevent damage to internal components
- Rechargeable battery included for operation almost anywhere
- Memory accumulation totals results
- Parts counting with freely selectable sample sizes
- Parts counting optimization automatically refines piece weight as parts are added
- Preset tare function speeds the process of repetitive weighing
- Selectable digital filtering helps minimize effects of vibration and disturbances
- Zero-tracking feature ensures display returns to zero reading

General Specifications

- Weighing units: g*, kg, lb, lb:oz**, oz
- Interface: RS-232
- Power supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.8" / 20mm-high digits
- Calibration: External
- Housing: ABS Plastic indicator with die-cast aluminum base
- Operating temperature: -10° to 40°C / 14° to 104°F

g only available for GFK in GFK 165a, 165aH and 330aH models

**not a legal for trade weighing unit*

5 year warranty

AGB & AGF Bench and Floor Scales

Versatile and easy to operate, AGB and AGF scales are well-suited for use in warehouses, shipping and receiving areas, factories and production facilities. The scales offer capacities from 16lb/8kg to 1320lb/600kg and perform a variety of weighing and counting tasks. Featuring an internal rechargeable battery, the AGB/AGF can be used in locations where power is unavailable.

AGB & AGF Bench Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Check counting
- Dynamic / Animal weighing
- Display hold
- Peak hold

Display backlight changes color during checkweighing

Rugged, IP68-certified waterproof indicator can be washed down
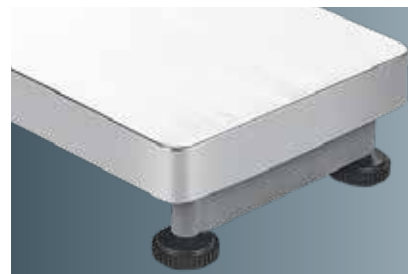

Large, grade 304 stainless steel pan for easy cleaning

Features

- Color-coded keys facilitate quick recognition of the most frequently used buttons
- Rugged construction stands up to industrial use
- RS-232 interface provides speedy connection to computers and printers
- Rechargeable battery included for operation almost anywhere
- Hold function freezes the displayed weight, allowing time to elapse without losing the result
- Checkweighing with audible alarm
- Parts counting with preset sample sizes
- Preset tare function speeds the process of repetitive weighing
- Selectable digital filtering for dynamic / animal weighing enables consistent results for moving subjects

General Specifications

BKT Label-Printing Checkweighing Bench Scales

BKT label printing scales offer the durability needed for manufacturing, packing, distribution, shipping and receiving tasks. The scale features a printer that has the ability to print weight, labels, QR codes and bar codes in numerous languages.

BKT Label-Printing Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Accumulation
- Display hold
- Peak hold
- Dynamic / Animal weighing
- Barcode / Label printing

Large, 1.3" / 34mm-high digits on vivid, backlit display

Built-in label printer allows easy output of weight data, QR codes, bar codes and more

Grade 304 stainless steel pan stands up to industrial use

Features

- RS-232 interface provides speedy connection to computers and printers
- Checkweighing function with audible alarm
- Sealed keypad protects against dirt and spills
- Overload protection helps prevent damage to internal components
- Built-in printer can print weight, QR codes, bar codes and customized labels in numerous languages
- Memory accumulation totals results
- Parts counting optimization automatically refines piece weight as parts are added
- Rechargeable battery included for operation almost anywhere
- Selectable digital filtering helps minimize effects of vibration and disturbances

General Specifications

- Weighing units: g, kg, lb, lb:oz, oz
- Interface: RS-232
- Power supply: 12VDC 3A adapter, Internal rechargeable battery
- Display: Backlit LCD with 1.3" / 34mm-high digits
- Calibration: External
- Housing: ABS Plastic indicator with die-cast aluminum base
- Operating temperature: -10° to 40°C / 14° to 104°F

Cruiser® **CCT** & **CDT** Bench Scales

The CCT and CDT offer intelligent functions that are practical for shipping and receiving, warehouse use, and production facilities. Intuitive software keeps track of the count and optimizes the unit weight to quickly check the number of pieces in a container. CDT also has the ability to connect to a larger, optional remote base to count larger numbers of items.

CCT Bench Scales

CDT Bench Scales

CDT w/ Optional second platform

CCT

Applications

- Weighing
- Parts counting
- Check counting
- Net Total weighing

Backlit LCD displays clearly show weight, unit weight and total count

Internal counting resolution of 1:600,000 for precise results

Count greater quantities accurately by connecting CDT to a second base

Features

- Color-coded keys facilitate quick recognition of the most frequently used buttons
- RS-232 interface provides speedy connection to computers and printers
- Optional USB interface simplifies data communication
- Solid ABS housing provides durability for industrial use
- Rechargeable battery for operation almost anywhere
- Built-in memory for storing products and settings
- Parts counting optimization automatically refines piece weight as parts are added
- Parts counting with freely selectable sample sizes
- Preset tare function speeds the process of repetitive weighing
- Programmable for counting to a preset number of parts

General Specifications

- Weighing units: g, kg, lb
- Interface: RS-232, Optional USB
- Power supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.6" / 15mm-high digits
- Calibration: External
- Housing: ABS Plastic
- Operating temperature: -10° to 40°C / 14° to 104°F

5 year warranty

GBC & GFC Parts Counting Bench and Floor Scales

GBC and GFC parts counting bench and floor scales offer a combination of features and durability, making them well-suited for demanding industrial counting tasks. A numeric keypad simplifies unit weight and sample entry, while the display shows total weight, unit weight and number of pieces. With its larger capacities and base size, the GFC can be used for counting and weighing large items or greater quantities of small items.

GBC Bench Scales

GFC Floor Scales

Applications

- Parts counting
- Check counting
- Weighing

Backlit LCD shows weight, unit weight and count in one convenient location

Internal counting resolution of 1:600,000 for precise results

RS-232 interface provides speedy connection to computers and printers

Features

- Large, grade 304 stainless steel pan allows swift cleaning
- Splash-proof housing, keypad and display are easy to clean
- Rechargeable battery included for operation almost anywhere
- Audible overload alarm warns when capacity is exceeded
- User can program alarm to sound when preset total is reached
- Parts counting with freely selectable sample sizes
- Parts counting optimization automatically refines piece weight as parts are added
- Printouts include date and time for data tracking within Good Laboratory Practices (GLP) guidelines
- Selectable digital filtering helps minimize effects of vibration and disturbances

General Specifications

- Weighing units: kg, lb
- Interface: RS-232, Optional USB
- Power supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.8" / 20mm-high digits
- Calibration: External
- Housing: ABS Plastic indicator with die-cast aluminum base
- Operating temperature: -10° to 40°C / 14° to 104°F

5 year warranty

BCT Advanced Parts Counting Label Printing Bench and Floor Scales

With an easy-to-clean stainless steel platform, BCT scales offer excellent value for industrial counting tasks. BCT contains a printer that prints QR codes, bar codes and labels. Store up to 1006 PLUs or piece weights to expedite inventory and batching jobs.

BCT Label-Printing Scales

Applications

- Parts counting
- Check counting
- Weighing

Grade 304 stainless steel pan stands up to industrial use

Built-in label printer allows easy output of counting data, QR codes, bar codes and more

Internal counting resolution of 1:600,000 for precise results

Features

- Backlit LCD shows weight, unit weight and count in one convenient location
- RS-232 interface provides speedy connection to computers and printers

Aqua® ABW Washdown Scales

NSF

Designed for applications needing frequent washdown, ABW scales come in a selection of capacities and readabilities. ABW offers an IP67 rating and features a stainless steel pan to withstand demanding industrial and food processing environments.

Aqua® Washdown Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing

Color-coded indicators allow quick notification of checkweighing limits

Solid IP67-rated ABS housing is durable enough for industrial use

Second display on rear for multiple-user functionality

General Specifications

- Weighing units: kg, g, lb, oz, lb:oz
- Power supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: LED with 0.8" / 20mm-high digits
- Calibration: External
- Housing: ABS Plastic
- Operating temperature: 0° to 40°C / 32° to 104°F

Model	Capacity	Readability	Pan Size	List Price
ABW 4	9lb / 4kg	0.001lb / 0.5g	9.6" x7.1" / 245x180mm	$430.00
ABW 8	18lb / 8kg	0.002lb / 1g	9.6" x7.1" / 245x180mm	$430.00
ABW 16	35lb / 16kg	0.005lb / 2g	9.6" x7.1" / 245x180mm	$430.00
ABW 32	70lb / 32kg	0.01lb / 5g	11.8" x8.3" / 300x210mm	$430.00

T SI E IP67 **3 year warranty**

Features

- IP67-rated housing with sealed keypad protects against water and dust
- Overload protection helps prevent damage to internal components
- Bright 20mm-high digits for easy visibility in most environments
- Front and rear LED displays allows for dual use
- Rechargeable battery included for operation almost anywhere
- Clear, hidden-until-needed function indicators keep focus where it's needed

Other Specifications

- Ship Weight: 8.8lb / 4kg
- Ship Dim: 11.6" x13.8" x6.9" / 295x350x175mm

7.1" x9.6" / 180x245mm*

4.1" / 105mm

11.4" / 290mm

10" / 255mm

Aqua® **ABW-S** Stainless Steel Washdown Scales

NSF

**Aqua®
Waterproof
Scales**
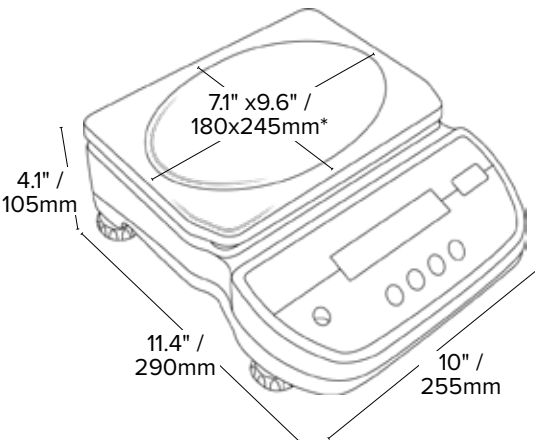

IP68-certified waterproof protection and grade 304 stainless steel housing make the ABW-S an essential tool for weighing in washdown environments. Weighing as precise as to 0.0002lb / 0.1g means dependable results for many applications.

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing

Display changes color for quick notification of checkweighing limits

Grade 304 stainless steel housing protects the scale in washdown areas

Lightweight, compact design for portability

T SI E IP68

Features

- IP68-rated housing with sealed keypad protects against water and dust
- Rechargeable battery included for operation almost anywhere
- Parts counting optimization automatically refines piece weight as parts are added
- Overload protection helps prevent damage to internal components
- Bright LED display for easy viewing in most environments
- Front and rear 24mm LED displays allows for dual use
- Clear, hidden-until-needed function indicators keep focus where it's needed

Gladiator® Washdown Scales

NEW! Legal for Trade Models

Gladiator scales achieve washdown weighing tasks in demanding food, pharmaceutical and industrial settings. Checkweighing is quick and easy, with a tactile keypad and backlit display that changes color to show if the weight is over, under or within the set limit. Boasting an IP68 rating, Gladiator features easy-to-clean stainless steel construction and a sealed indicator that is protected in dusty or wet environments.

**Measurement Canada
Approval Coming in 2023*

**Gladiator®
Washdown
Scales**

Applications

- Weighing
- Parts counting
- Percentage weighing
- Dynamic / Animal weighing
- Checkweighing
- Check counting
- Display hold

GGS

GGB

GGF

GGL
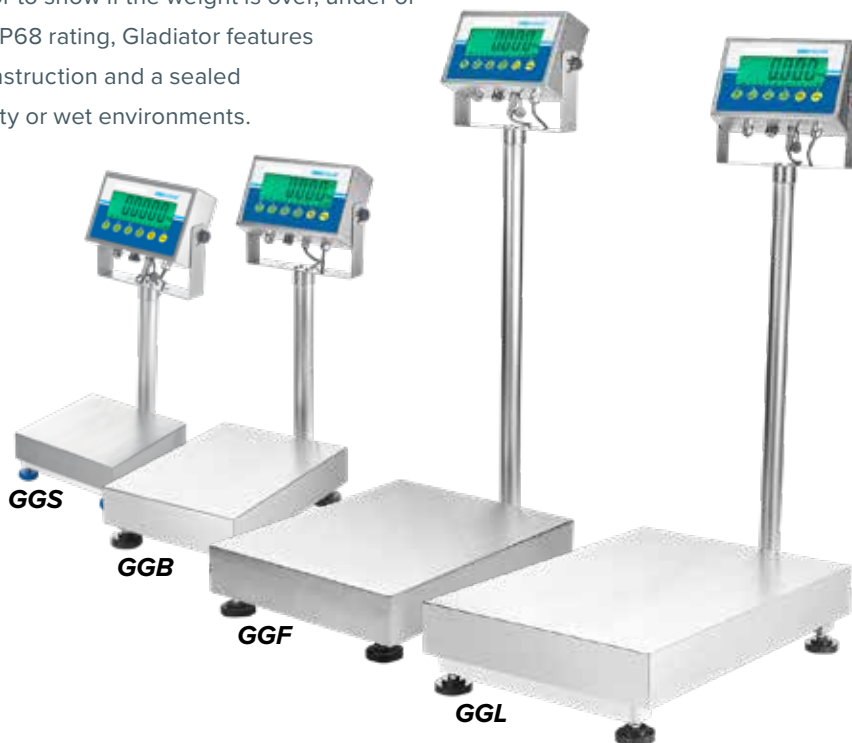

Encapsulated, silicone-coated loadcell is protected from water

Backlit display changes color for quick notification of checkweighing limits

IP68-rated for protection against water and dust

Features

- Large, grade 304 stainless steel pan allows for swift cleaning
- Rugged stainless steel construction for ultimate durability
- Sealed keypad protects against dirt and spills
- RS-232 interface provides speedy connection to computers and printers
- Rechargeable battery included for operation almost anywhere
- Programmable auto power-off to save energy
- Hold function freezes the displayed weight
- Parts counting with preset sample sizes
- Preset tare function speeds the process of repetitive weighing
- Selectable digital filtering for dynamic / animal weighing enables consistent results for moving subjects

General Specifications

- Weighing units: g, kg, lb, lb:oz, oz, N, custom unit
- Interface: RS-232
- Power supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 1.6" / 40mm-high digits
- Calibration: External
- Housing: Stainless steel
- Operating temperature: -10° to 40°C / 14° to 104°F

5 year warranty

WBW Approved Washdown Scales

WBW washdown scales with a durable stainless steel weighing pan and IP-66 rated housing for easy operation in wet environments. Ideal for agriculture, food service, cosmetics and retail, the WBW is NTEP and Measurement Canada approved.

WBW Washdown Scales

Applications

- Weighing
- Checkweighing

IP66-rated for protection against water and dust

Checkweighing LEDs clearly show under, over and acceptable limits

Dependable, NTEP-approved weighing results

General Specifications

- Weighing units: g, kg, lb, oz
- Power Supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.8" / 20mm-high digits
- Housing: ABS plastic
- Operating temperature: -10° to 40°C / 14° to 104°F

WBZ Approved Washdown Retail Scales
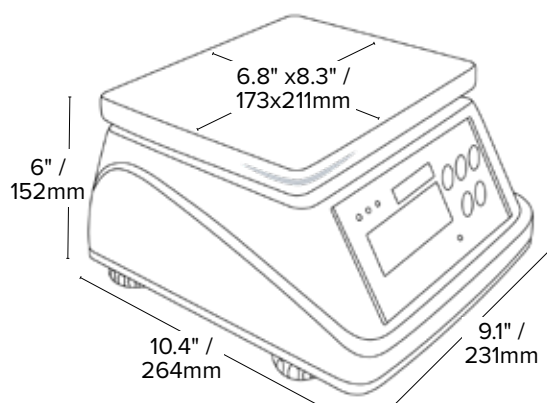

WBZ Retail Scales

The WBZ washdown retail scale features a durable stainless steel pan and IP-66 rated waterproof housing, making it ideal for processing, preparing and packaging food. The backlit display provides weight, price per unit and total cost. WBZ is NTEP and Measurement Canada approved.

Applications

- Weighing
- Price Computing

IP66-rated for protection against water and dust

Rear display lets customers see the weight, price per unit and total cost

Dependable, NTEP-approved weighing results

Model	Capacity	Readability	Pan Size	List Price
WBZ 15aM	15lb / 6kg	0.005lb / 0.002kg	6.8" x8.3" / 173x210mm	$275.00

General Specifications

- Weighing units*: kg, lb
- Power Supply: 12VDC 800mA adapter
- Display: Backlit LCD with 0.6" / 16mm-high digits
- Housing: ABS plastic
- Operating temperature: -10° to 40°C / 14° to 104°F

1 year warranty

One weighing unit (either lb or kg) is programmed on the scale prior to purchase. If it needs to be switched later, the conversion must be performed by technicians in an Adam Equipment facility.

Features

- Backlit LCD shows weight, unit list price and total list price to provide all key information simultaneously
- Large, grade 304 stainless steel pan allows swift cleaning
- Overload protection helps prevent damage to internal components
- Sealed keypad protects against dirt and spills
- Rechargeable battery included for operation almost anywhere
- List Price displayed in choice of available currencies
- Security password control prevents unauthorized access
- Selectable auto-clear function enables the last item to be reset each time the scale returns to zero
- Switchable between list price per lb, 100g or kg

Other Specifications

- Ship Weight: 8.8lb / 4kg
- Ship Dim: 11" x14.2" x8.7" / 280x360x220mm

6.8" x8.3" / 173x211mm

6" / 152mm

SHS, LHS & IHS Industrial Crane Scales

With a large rotating plated steel hook and shackle with safety catch, suspended loads can be safely weighed with strength and flexibility. SHS crane scales feature poly-carbonate housing, LHS and IHS crane scales feature die cast aluminum housing. A standard remote control allows scale operation from a safe distance.

SHS Crane Scales

LHS Crane Scales

IHS Crane Scales

IHS

LHS

SHS

Applications

- Weighing
- Display hold

Rugged construction stands up to industrial use

Rotating hook allows easy access while loading, then safely locks in place during weighing

Remote control allows safe, hands-free operation

Features

- Bright LED display for easy viewing in most environments
- IHS's solid metal housing resists spills and protects internal components
- Rechargeable battery included for operation almost anywhere
- Hold function freezes the displayed weight, allowing time to elapse without losing the result
- Zero-tracking feature ensures display returns to zero reading

General Specifications

- Weighing units: kg, lb
- Power supply: Internal rechargeable battery;
  - SHS: 8.4VDC 800mA adapter, 4 x AA batteries
  - LHS: 6VDC 600mA adapter
  - IHS: 7.2VDC 2A adapter
- Display:
  - SHS: LED with 0.6" / 15mm-high digits
  - LHS: LED with 1" / 25mm-high digits
  - IHS: LED with 1.2" / 30mm-high digits
- Calibration: External
- Housing:
  - SHS: Polycarbonate
  - LHS / IHS: Die-cast aluminum
- Operating temperature: 0° to 40°C / 32° to 104°F

1 year warranty

PT & PT-S Industrial Platform Scales

The PT platform scale is designed to weigh pallets, crates and large containers on warehouse and factory floors. PT platforms are compatible with several Adam indicators that can be used for checkweighing, parts counting and dynamic animal weighing.

PT Platforms

PT-S Stainless Platforms
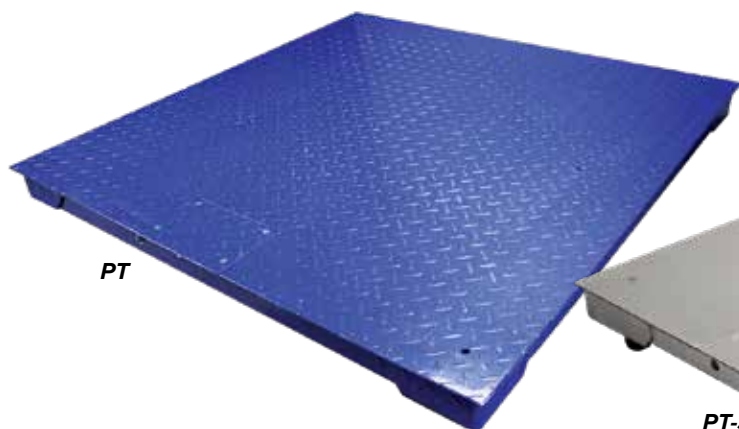

PT

PT-S

Applications

- Weighing
- Parts counting
- Checkweighing
- Dynamic / Animal weighing

Compatible with:

AE 403 Indicator　　**GK & GC Indicators**　　**AE 503 & AE 504 Indicators**

PT-S features IP66-rated protection from moisture and dust

Attachable eye hooks for easy transportation
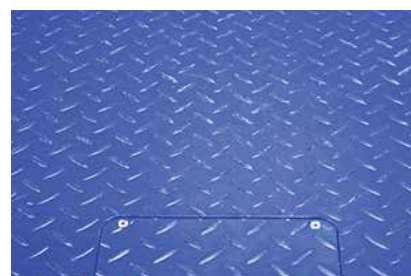

PT features tough, diamond plated surface for added grip

PT Features

- Rugged construction stands up to industrial use
- Diamond-plate surface for added grip
- Can be used with any Adam indicators
- Approximately 5-meter / 15-foot shielded cable

PT-S Features

- IP66-rated for protection against water and dust
- Rugged stainless steel construction for ultimate durability
- Heavy-duty rubber feet ensure stability of unit
- Approximately 3-meter / 10-foot shielded cable

General Specifications

- Weighing units: kg, lb*
- Housing: Mild steel base
- Operating temperature: -10° to 40°C / 14° to 104°F

*Not all weighing units available on all indicator setups

3 year warranty

PTM Drum and Wheelchair Platform Scales

The PTM low-profile platform is ideal for weighing wheelchairs, barrels and oversized containers. Ramps on both sides offer smooth transitions between the floor and the weighing platform, while handles and wheels allow easy mobility.

PTM Platform Scales

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Dynamic / animal weighing

Integrated handles and wheels for transportation

Built-in ramps on either side make access easier

Tough, diamond-plate surface for added grip

Model	Capacity	Readability	Pan Size	List Price

AELP Pallet Beam Scales

AELP beams are a portable, durable weighing solution that can be adjusted according to the size of the object being weighed, including containers, platforms and cages. Suitable for industrial and agricultural environments.

AELP Pallet Beams

Applications

- Weighing
- Parts counting
- Percentage weighing
- Checkweighing
- Check counting
- Dynamic / animal weighing

Integrated handles and wheels for added portability

Low profile beams for easy loading with a pallet truck

Can be stored away easily when not in use

9.4" / 240mm

5.7" / 145mm
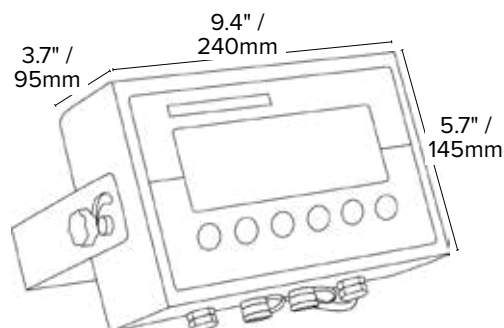

AE 503 & AE 504 Label Printing Indicators

With a built-in label printer, the AE 503 and AE 504 can print 50mm-wide labels featuring weighing results, customized text, barcodes, QR codes, images and custom logos. Labels can be designed and customized with the included software.

AE 504

AE 503 Indicators

AE 504 Indicators

AE 503

Applications

AE 504

- Weighing
- Parts counting
- Check counting
- Averaging
- Barcode / Label printing
- Checkweighing
- Accumulation

AE 503

- Dynamic / Animal weighing
- Percentage weighing
- Display hold
- Peak hold

Print weight, QR codes, bar codes and customized labels in several languages

Vivid, backlit LCD easily visible in any lighting conditions

AE 504's numeric keypad allows quick selection from 1,006 PLUs

Model	Capacity	Readability	List Price
AE 503	Selectable	Selectable	$615.00
AE 504	Selectable	Selectable	$735.00

General Specifications

- Weighing units:

  AE 503: g, kg, lb, oz, ct, dr, mm, T, tonne
  AE 504: g, kg, lb, oz

- Interface: RS-232

- Power supply: 12VDC 3A adapter,

  Internal rechargeable battery

- Display:

  AE 503: Backlit LCD with 1.3" / 34mm-high digits
  AE 504: Backlit LCD with 0.9" / 22mm-high digits

- Calibration: External

- Housing: ABS Plastic

- Operating temperature: 0° to 40°C / 32° to 104°F

3 year warranty
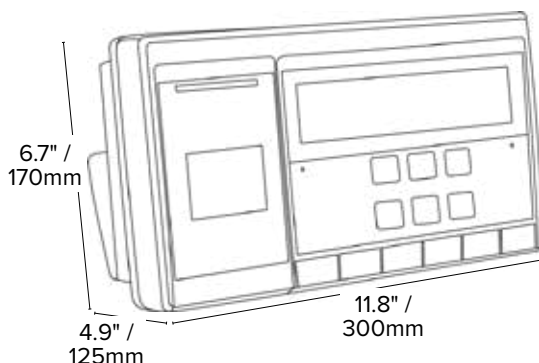

Features

- Rechargeable battery included for operation almost anywhere
- Parts counting optimization automatically refines piece weight as parts are added
- Checkweighing with audible alarm
- User-selectable scale division

Other Specifications

- Ship Weight: 8.8lb / 4kg
- Ship Dim: 6.9" x15.9" x8.3" / 175x405x210mm

6.7" / 170mm

4.9" / 125mm

11.8" / 300mm

GK Checkweighing Indicators

The GK weighing indicator features a full numeric keypad, allowing users to preset tare values for repetitive weighing of identical containers. Colored LEDs speed up checkweighing, indicating if the weight is over, under or within a specified range.

GK Indicators

Applications

- Weighing
- Parts counting
- Check counting
- Percentage weighing
- Checkweighing
- Dynamic / Animal weighing

Solid ABS housing is sealed and durable for industrial use

RS-232 interface provides speedy connection to computers and printers

Color-changing LEDs for easier checkweighing

General Specifications

- Weighing units:
    - GKa: kg, lb, lb:oz, oz, N
    - GKaM: g, kg, lb, oz
- Interface: RS-232
- Power supply: 12VDC 800mA adapter, Internal rechargeable battery
- Display: Backlit LCD with 0.8" / 20mm-high digits + capacity tracker
- Calibration: External
- Housing: ABS Plastic
- Operating temperature: -10° to 40°C / 14° to 104°F

Model	Capacity	Readability	List Price
GKa	Selectable	Selectable	$360.00
GKaM	Selectable	Selectable	$415.00

Models ending in:

M: Trade-approved model

3 year warranty

Features

- Color-coded keys facilitate quick recognition of the most frequently used buttons
- Internal counting resolution 1:600,000 for precise results
- Parts counting optimization automatically refines piece weight as parts are added
- Wall-mount bracket for placing indicator on vertical surface

Other Specifications

- Ship Weight: 6lb / 2.72kg
- Ship Dim: 9" x11" x9" / 229x279x229mm

10.2" / 240mm

6.7" / 145mm

4.5" / 95mm

GC Counting Indicators

GC Indicators

With a wide range of features, GC and GK indicators are ideal for checkweighing and parts counting tasks. A numeric keypad facilitates unit weight and sample entry, while the display shows unit weight, total weight and number of pieces.

Applications

- Weighing
- Parts counting
- Check counting

MTB Baby and Toddler Scales

Lightweight and portable, the MTB offers versatility for pediatricians and other healthcare providers. The cleverly designed ergonomic cradle provides comfortable support for babies and removes easily to reveal a non-slip rubber mat underneath to weigh toddlers.

MTB Scales

Applications
- Weighing

Remove cradle to reveal stand-on base underneath, ideal for toddlers

Lightweight design for added portability

Ergonomic cradle for baby's comfort and support

General Specifications
- Weighing units: kg, lb, lb:oz
- Power supply: 6VDC 500mA adapter, 4 x AA batteries
- Display: LCD with 1.1" / 29mm-high digits
- Calibration: External
- Housing: ABS Plastic
- Operating temperature: 10° to 40°C / 50° to 104°F

- Power supply: 12VDC 500mA adapter, Internal rechargeable battery
- Interface: RS-232

Features

- Metal construction for base and pillar
- Integrated wheels allow for easy transport
- Body Mass Index (BMI) calculation

Other Specifications

- Ship Weight: 37lb / 16.8kg
- Ship Dim: 21" x52" x6" / 533x1321x152mm
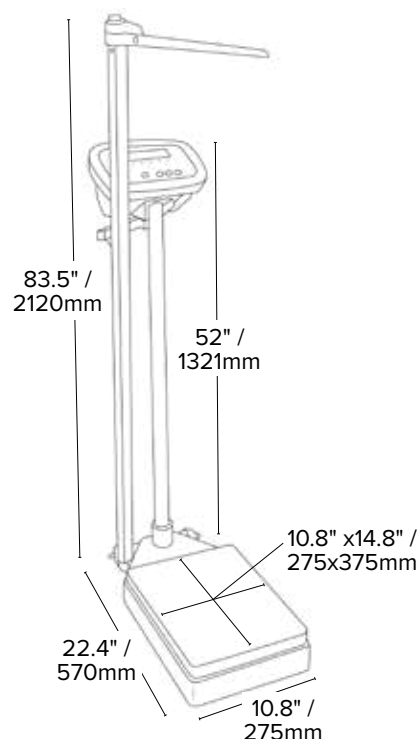

ASTM & OIML* Calibration Weights

ASTM and OIML stainless steel calibration weights are used to test and calibrate Adam balances within ASTM and OIML standards, respectively. ASTM 0 weights offer the highest accuracy ideal for analytical and precision balances, followed by ASTM 1, 2 and 3 weights which are suitable for precision balances, and ASTM 4 weights for the largest capacities. OIML E1 and E2 weights provide the highest accuracy ideal for calibrating analytical and precision balances, while F1 weights are suitable for calibrating solely precision balances. M1 weights offer a lower level of accuracy, but are affordable and ideal for calibrating compact portable balances and bench scales.

ASTM Weights

OIML Weights

ASTM

OIML

Choose complete weight sets or single weights

Ensure that your scale or balance provides accurate results

All weights meet requirements for testing to ASTM or OIML standards

Features

- ASTM 0/1 and OIML E1/2 weight sets for calibrating analytical and precision balances to a high level of accuracy
- ASTM 2 and OIML F1 weights are suitable for calibrating precision balances
- ASTM 3/4 and OIML M1 weights are excellent for calibrating compact balances
