

9250 & 9252 Series

Nitrile Powder-Free, Fingertip-Textured Examination Gloves

Advanced nitrile material formulation provides superior tactile sensitivity with lightness of fit, reduced hand fatigue, and excellent barrier protection from bloodborne pathogens. Offers exceptional resistance to chemicals, oils, and temperature extremes when compared to latex or vinyl gloves.

Features & Benefits

- Not made with natural rubber latex; powder-free; non-sterile
- Fingertip textured for improved grip
- Outstanding comfort, durability, and elasticity
- Ambidextrous with beaded cuffs

Manufacturing Excellence

- FDA 510(k) Approved for Medical Use
- Meets and exceeds ASTM D6319 Specification for Nitrile Examination Gloves for Medical Application
- Meets and exceeds ASTM F1671 Test Method for Resistance of Materials by Blood-Borne Pathogens (Viral Penetration)
- Manufacturing certified ISO 9001 for Quality Management Systems, as well as ISO 13485 for Quality Management Systems for Medical Devices
- Meets FDA CFR Title 21 Part 177 for Safe Contact With Food Surfaces

3667 Series

Latex Powder-Free, Fully Textured Disposable Gloves

Advanced natural rubber latex material formulation is designed for optimal comfort, performance, and durability in food handling, food preparation, and light industrial applications.

Features & Benefits

- Natural rubber latex material
- 100% powder free
- Fully textured for sustained grip during use
- Superior comfort, elasticity, tactile sensitivity, and tear resistance
- Ambidextrous with beaded cuffs

Manufacturing Excellence

- Meets FDA CFR Title 21 Part 177 for Safe Contact With Food Surfaces
- Manufacturing certified ISO 9001 for Quality Management Systems
- Manufactured in FDA-registered facilities
- Manufactured on production lines utilizing medical-grade technology

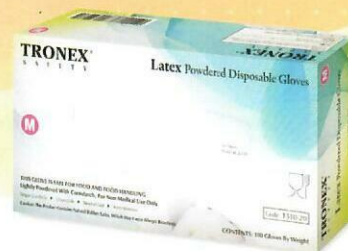

Item Code	Size	Color	Packaging
3667-10	SM	Natural	100 gloves/box, 10 boxes/case Total: 1,000 gloves
3667-20	MD		
3667-30	LG		
3667-35	XL		

1510 Series

Latex Powdered Disposable Gloves

Advanced natural rubber latex material formulation lightly powdered with premium-grade cornstarch is designed for optimal comfort, performance, and durability in food handling, food preparation, and light industrial applications.

Features & Benefits

- Natural rubber latex material; smooth finish
- Uniformly powdered with U.S. Pharmacopeia (USP) grade cornstarch for easy donning
- Superior comfort, elasticity, tactile sensitivity, and tear resistance
- Ambidextrous with beaded cuffs

Item Code	Size	Color	Packaging

1510-30	LG		
1510-35	XL		

Manufacturing Excellence

- Meets FDA CFR Title 21 Part 177 for Safe Contact With Food Surfaces
- Manufacturing certified ISO 9001 for Quality Management Systems
- Manufactured in FDA-registered facilities
- Manufactured on production lines utilizing medical-grade technology

9388 Series

Nitrile Powder-Free, Fingertip-Textured Disposable Gloves

Next-generation nitrile material formulation offers enhanced strength, softness, elasticity, and dexterity for reduced hand fatigue. Black color provides a sleek look and versatility for a wide range of applications.

Features & Benefits

- Not made with natural rubber latex, powder-free
- Fingertip textured for improved grip
- High degree of elongation
- Ambidextrous with beaded cuffs

Manufacturing Excellence

- Meets FDA CFR Title 21 Part 177 for Safe Contact With Food Surfaces
- Manufacturing certified ISO 9001 for Quality Management Systems
- Manufactured in FDA-registered facilities
- Manufactured on production lines utilizing medical-grade technology
